

IILM UNIVERSITY, GREATER NOIDA

INTERNSHIP REPORT PRESENTATION

Data Science Master
Virtual Internship

AICTE – EduSkills Virtual Internship Program

SATYAM RAJ

Roll No. 2410031528 | B.Tech CSE | Batch 2024– 2028

8 WEEKS • 2026

Candidate Profile

**Satyam
Raj**

B.Tech – Computer Science
& Engineering

1

Roll Number

2410031528

2

Institute

IILM University, Greater Noida, U.P.

3

Programme

B.Tech CSE, Batch 2024– 2028

4

Internship Domain

Data Science Master

5

Duration

8 Weeks | 2026

EduSkills, AICTE & Data Science

The internship provided a structured, practical learning environment focused on Data Science fundamentals and real-world dataset analysis.

EduSkills Academy

ISO 9001:2015 and ISO/IEC 20000-1:2018 certified organization working under the theme “Nation Building Through Skills.”

AICTE Patronage

The program is conducted under the AICTE– EduSkills Virtual Internship Program and the AICTE National Internship Portal.

Learning Focus

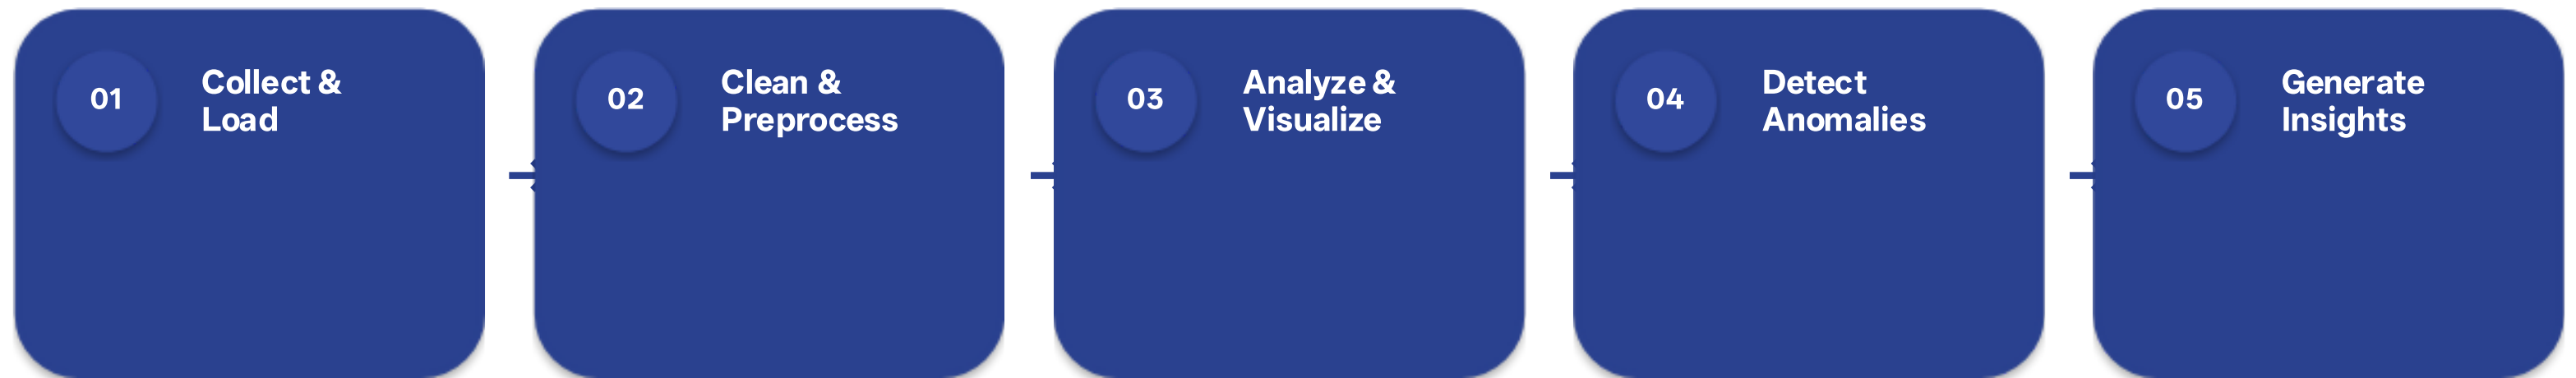

Practical Data Science learning covering Python, data handling, analysis, visualization, data quality and machine learning.

8 WEEKS • STRUCTURED LEARNING • HANDS-ON PRACTICE

Bridging Theory and Applied Data Science

Many engineering students learn Data Science, statistics and machine learning theoretically, but have limited structured exposure to imperfect, real-world datasets and practical analysis.

THIS INTERNSHIP FOLLOWED THE WORKFLOW

What the Internship Set Out to Achieve

1

Data Science

Fundamentals and real-world applications.

2

Python

Programming for data analysis and manipulation.

3

NumPy + Pandas

Dataset handling, processing and analysis.

4

Data Cleaning

Missing, duplicate, inconsistent and invalid data.

5

EDA + Visualization

Patterns, trends and relationships.

6

Statistics + ML

Outliers, anomalies and ML workflow.

The Toolkit Behind the Internship

1

Python

Core programming language

2

Pandas

Data analysis & manipulation

3

NumPy

Numerical computing

4

Matplotlib

Data visualization

5

Scikit-learn

Machine learning

6

Jupyter Notebook

Development environment

7

CSV / DataFrames

Dataset handling

8

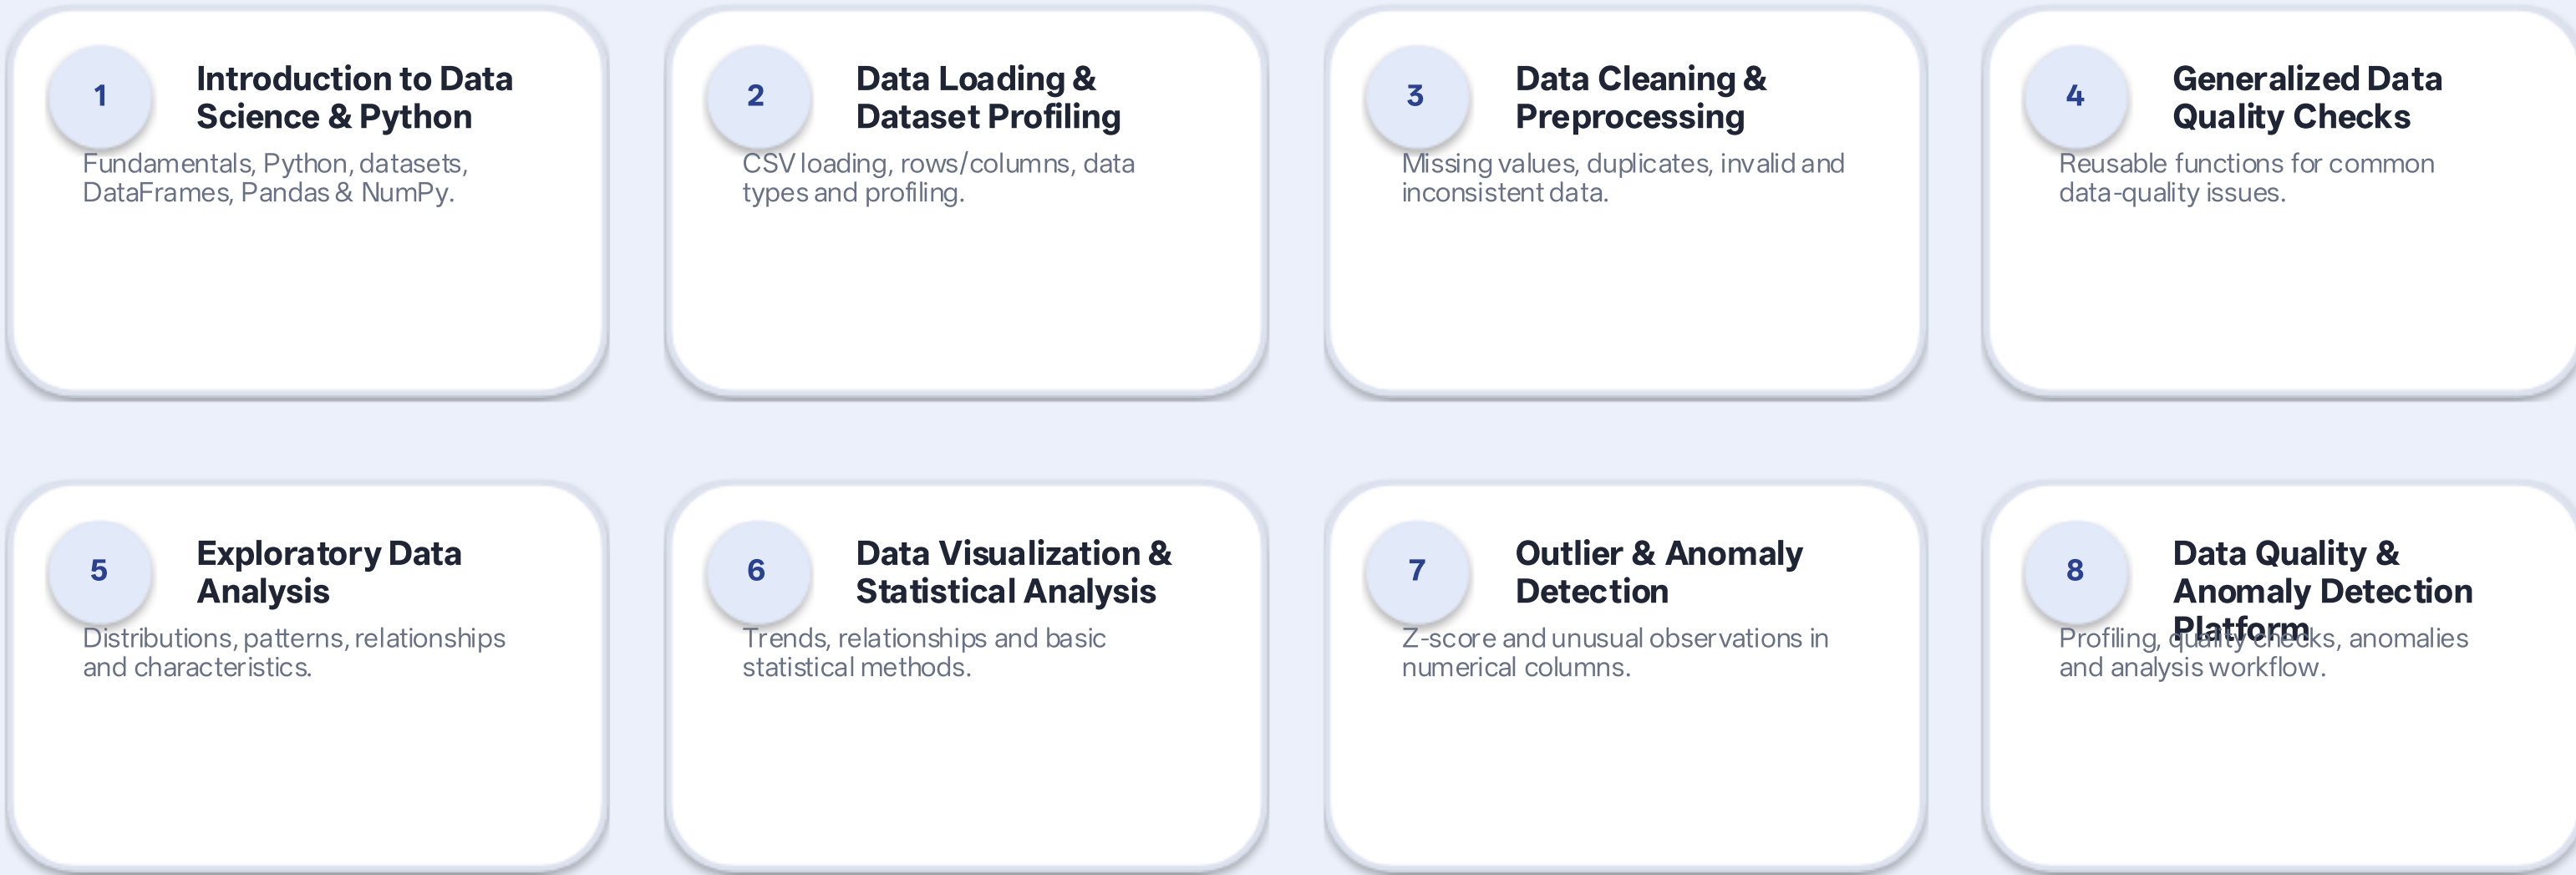

Z-score

Anomaly analysis

From Raw Dataset to Meaningful Insights

The 8-Week Learning Journey

FINAL • ASSESSMENT & PROJECT REVIEW

Skills & Capabilities Gained

- ✓ Strong understanding of the complete Data Science workflow.
- ✓ Practical proficiency in Python, Pandas and NumPy.
- ✓ Hands-on experience in data cleaning and preprocessing.
- ✓ Ability to perform EDA and use statistical techniques.
- ✓ Practical understanding of data visualization with Matplotlib.
- ✓ Ability to identify outliers and anomalies using Z-score.
- ✓ Capability to develop reusable data-quality checking functions.
- ✓ Improved analytical, programming and problem-solving skills.
- ✓ Structured Data Quality & Anomaly Detection workflow.

CERTIFICATION

Successfully Completed

GRADE

Completion confirmed

INTERNSHIP

Data Science Master

DURATION

8 Weeks

STUDENT

Satyam Raj • 2410031528

THANK YOU

Data Science Master Virtual Internship
